| 1 | <p><u>Minutes of the last Meeting (17/04/18)</u></p> <p>Accepted</p> <p><u>OAA Feedback Martin Diacon</u></p> <p>MD stated short meeting from 11-2.30 with lunch break. About 20 people in attendance, representing various societies around country, felt OAA did not have any idea how many there were. Meeting outlined what OAA does, GPAS, Quality improvement in Obstetrics, East Anglia guy who set up society 20 years ago and how evolved, Trainee rep talked about how to link to other society trainee reps, How to move forward. OAA no intention to take over societies and keen to offer support. MP Asked what support is being offered, MD stated legal issues, GDPR and finance issue help for societies, Most societies run through clinical leads in hospitals which meet once\twice a year share best practice etc. MP what should we take from this MD we need to have elections, better governance structure and better engagement from local hospitals. Most societies have issues around finance such as signatories on accounts etc. Need buy in from hospitals. Pan Yorkshire would not work. Possibly invite Clinical Leads to Hinsley Hall. MD does not think we a sustainable based on current committee fatigue although noted we have been going since 2011. A discussion then took place amongst all members. Issues we face are amongst better PR and generating interest amongst trainees and poster\oral presentations.</p> | | | |
